## EDUCATION

**University of Colorado Boulder USA** Embedded Interface Design Specialization Certificate

// Feb 2023 - Apr 2023, Online

- Completed Embedded Interface Design Specialization program and developed an understanding of user experience, communications protocols, and rapid prototyping.

**California Institute of the Arts** UX/UI Design Specialization Certificate

// Feb 2023 - Apr 2023, Online

- Completed a UX/UI Design Specialization program and applied my learning to create several effective websites and apps based on current UX best practices.

**Meta** Principles of UX/UI Design Certificate

// Mar 2023 - Apr 2023, Online

- Completed Principles of UX/UI Design, Evaluating interactive design, Applied Design Fundamentals, Designing your UI and final assessment.

**Ministry of Communications and Information Technology** Advanced UX Design Certificate

// August 2022 - Sep 2022, Online

- Completed a Nanodegree Program Design impactful user experiences for products in today's digital world.

**Google** UX Design Certificate

// May 2022 - August 2022, Online

- Completed hands-on projects and [developed a portfolio](#) including 3 projects to receive the certificate.

**HIMIT** Bachelor's Degree

// Oct 2012 - May 2016

- I've studied computer science, including programming languages, data structures, algorithms, databases, computer architecture, operating systems, artificial intelligence, computer graphics, and human-computer interaction.

## EXPERIENCE

### Ui/Ux design intern (SYNC INTERN'S)

// Feb 2023 - Mar 2023 , Prayagraj, India (Remote)

- As a former UI/UX design intern with proficiency in Figma, my focus was on creating visually appealing and user-friendly interfaces for digital products.
- Overall, my passion for creating engaging user experiences made me a valuable addition to any team. I successfully completed assigned tasks, such as designing an educational app which is available for viewing on Behance.

### Ui/Ux designer (Freelancer)

// April 2022 - Present

- I have extensive experience in conducting user research, creating wireframes and prototypes, and designing visual interfaces that align with brand identity and usability best practices.
- Throughout my career, I have worked on various projects for clients across different industries, delivering innovative solutions that have met their business goals.

### Android developer (Google play store - Amazon appstore)

// September 2017 - March 2022

- I am an experienced Android Developer with proficiency in Java programming language and development tools like Android Studio and Gradle. I have skills in working with APIs to connect apps to external resources and implementing functionality using various Android SDK components.
- One of my notable achievements was creating the Egypt Doctors app which is available on Amazon App Store. The app allows users to search for doctors, view their profiles, and book appointments, while doctors can manage their schedules and receive appointment requests.
- This project showcased my abilities in delivering a high-quality product that meets user needs.

## SKILLS

### Tools

Figma // Adobe XD // Zeplin // Adobe Photoshop // Lookback // Adobe illustrator // wireframe.cc // InVision // HTML5 // Css3 // Bootstrap // jQuery // JavaScript

### Process

User research // Personas // Flow Chart // Wireframing // Prototyping // Usability testing // Presentation

### Collaboration

Communicative // Gives design critique + feedback // Strong presenter // Detail-oriented // Meet deadlines

7 Courses

**Foundations of User  
Experience (UX) Design**

**Start the UX Design Process:  
Empathize, Define, and  
Ideate**

**Build Wireframes and Low-  
Fidelity Prototypes**

**Conduct UX Research and  
Test Early Concepts**

**Create High-Fidelity Designs  
and Prototypes in Figma**

**Responsive Web Design in  
Adobe XD**

**Design a User Experience for  
Social Good & Prepare for  
Jobs**

Aug 16, 2022

## AHMED MAHMOUD ABDELKHALEK SAEED

has successfully completed the online, non-credit Professional  
Certificate

# Google UX Design

Those who earn the Google UX Design Professional Certificate have completed seven courses, developed by Google, that include hands-on, practice-based assessments and are designed to prepare them for introductory-level roles in UX design. They can complete the design process from beginning to end: empathizing with users, defining their pain points, coming up with ideas for design solutions, creating wireframes and prototypes, and testing designs to get feedback.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.

## UI / UX Design

In this Specialization, learners summarized and demonstrated all stages of the UI/UX development process, and reviewed current best practices in UX design to create effective and compelling screen-based experiences for websites or apps. Learners completed a series of short exercises, both visual and non-visual, to apply acquired knowledge, from organizing and structuring screen-based content, defining goals and strategy, to creating wireframes and visual mockups. Finally, learners produced a mid-level digital prototype with simulated functionality, as well as a comprehensive plan for a complex website.

Michael Worthington  
Faculty, Program in  
Graphic Design  
School of Art

Roman Jaster  
Visiting Faculty,  
Program in Graphic

# Embedded Interface Design

In this specialization, learners developed an understanding of user experience, communications protocols, and rapid prototyping for embedded device interface designs and systems. Learners leveraged modern programming tools, design methods, and device- and cloud-based platforms for their development work. Projects performed explored key user experience design methods, software-based user interface and device communication designs, and the use of cloud support for developing prototypes and systems. With this specialization, learners gained the tools for developing effective user interfaces and connected embedded prototypes, devices, and systems.

Bruce Montgomery,  
PhD, PMP; Sr. Instructor  
at University of  
Colorado Boulder
